ELECTRICAL & POWER INFO

February - March 2025 | Vol. 14 Issue 6

R.N.I. No. MAHENG/2010/31883

KEI® Wires & Cables

POWERING PROGRESS, EMPOWERING FUTURES

WIRES KA ALLROUNDER

KEI WHERE VISION MEETS INNOVATION

"Fall down 7 times, Stand up 8"

ANIL GUPTA
CMD, KEI Industries Ltd.

LEADING THE CHARGE IN CONNECTIVITY AND INNOVATION

T P Singh, Vice President Sales Instrumentation - APAC, Flir India

Tobias Bangert, Team Leader Saler Partner International, Janitza Electronics -Germany

Rajesh Changani
Managing Director,
Atlas Metal Industries Pvt. Ltd.

Kalidas Bhangare
MD, Testo India Pvt. Ltd.

Prabal Ray
CMD, TDK India Pvt. Ltd.

Ayush Sinhal
Chief Executive Officer,
Kimbal Pvt. Ltd. (Formerly Sinhal Udyog Pvt. Ltd.)

Jignesh Ajmera
Director, Ajmera Electrotech LLP

Navin Goliya,
B.E. (Electronics)- PARTNER,
Kusam Electrical Industries Ltd.

Suniil Giasottta,
CEO & Director Sales,
Braco Electricals (India) Pvt. Ltd.

Prabhakaran V,
Head – Product Management,
Fluke India

Bhavin Jain
Director,
Neutronics Manufacturing Pvt. Ltd.

Kirit Dalsukhbhai Patel,
Partners, BARODA BUSHINGS & INSULATORS LLP, ECS INDUSTRIES (EPOXY HOUSE GROUP)

Pankaj Gaikwad, Vice President (Strategy, Technical, and International), Motwane Manufacturing Company Pvt. Ltd.

Prakash Jha
Managing Director,
PCI CABLES INDUSTRIES Pvt. Ltd.

Taiyab Zia Ahmed
Founder & Director,
MTEKPRO Technologies Pvt. Ltd.

ELEVATING LEADERS TO

16th Edition
ELECRAMA
Powering the Future of Energy

Mayukh Banerjee
CEO (India, SAARC & Southeast Asia),
Brugg Cables India Pvt. Ltd

Amit Ghaisas
MD, Minilec India Pvt. Ltd.

Ather Salim
Director, NextGen Equipments Pvt. Ltd.

Nitin Barve
MD, NSM Technologies Pvt. Ltd.

Rohit Chowdhary
Director, Eppeltone Engineers Pvt. Ltd.

Dylan D'Souza
MD, Flu-con Components Pvt. Ltd.

Mukesh Pareek
MD, Akshyan Power Solutions Pvt. Ltd.

Prashant Singh
Head of Business Development,
Lawson Lucy Pvt. Ltd.

Sanat Mehta
Director, Bharat Insulation Company (India) Pvt. Ltd.

DPK Udas
Vice President (Business Development), Modern Insulators Ltd.

PRAKASH JHA

Managing Director,
PCI CABLES INDUSTRIES Pvt. Ltd.

Could you provide some details about the products and services your company offers?

Our company is a leading manufacturer and exporter of overhead conductors, cables, and earth wires. Known as "The Ultimate Manufacturer of Cables and Conductors," we offer PVC/XLPE insulated power and control cables, service cables, and aerial bunched cables up to 11 kV, along with overhead conductors up to 800 kV.

We supply state electricity boards, public sector utilities, and central government organizations across India, with our products also used in metro railway projects and by international clients. Our focus on quality and innovation makes us a trusted name in electrical infrastructure.

What sustainable practices have you implemented in the production of conductor, cables, earth wire, EPC, and turnkey projects? How important is sustainability to your business?

Sustainability is integral to our business, and we have implemented eco-friendly practices in our operations. Over the past two years, we have developed high-efficiency conductors like AL-59, ECO Conductors, and BEC (Steel) Conductors to enhance energy transmission while minimizing environmental impact. Our commitment to innovation continues with the upcoming launch of MVCC (Medium Voltage Covered Conductors) and HTLS (High Temperature Low Sag) conductors next year.

How have market demands for different types of cables and conductors changed over the past few years?

The demand for cables and conductors has surged due to large-scale infrastructure projects like TBCB and RDSS. This growth is evident in our order books, including a Rs.44 crore railway electrification order from Rail Vikas Nigam Limited in September 2024 and a USD 42 million export order for Guinea and Liberia.

For 2025-26, we have secured orders worth Rs.50 crores. Our turnover grew from Rs.127 crores in 2022-23 to Rs.165 crores in 2023-24, with Rs.119 crores achieved in the first half of 2024-25. We anticipate closing the year at Rs.250 crores.

How do you ensure a balance between operational efficiency and maintaining high-quality standards in production?

Balancing operational efficiency with high-quality standards is key to our long-term success. We leverage advanced technologies to develop innovative products like MVCC, ECO Conductors, AL-59, and HTLS, aligning with market needs and future energy trends.

We are also planning a BSE listing within 6-8 months to enhance financial growth. Additionally, our expansion plans include setting up a Properzi mill and galvanizing plant next year, improving production efficiency and quality control. These initiatives support our goal of becoming a top ten manufacturer in the next 5-7 years.

As a Director, how do you ensure a balance between operational efficiency and maintaining high-quality standards in production?

As a Director, I prioritize balancing operational efficiency with high-quality standards through innovation and strategic planning. We integrate advanced technologies in manufacturing, developing products like MVCC, ECO Conductors, AL-59, and HTLS to meet market demands and anticipate future trends.

We are also pursuing a BSE listing within 6-8 months to strengthen operations and financial growth. Additionally, our expansion plans include setting up an in-house Properzi mill and galvanizing plant next year, enhancing production efficiency and quality control. These initiatives align with our goal of becoming a top ten manufacturer within 5-7 years.
